

5 read-out options!

**1:**  
**Targets:**  
Aligned when laser hits both target slots

**2:**  
**Built-in display:**  
Offset (mm or inch)  
Horizontal angle  
Twist angle

**3:**  
**iOS and Android:**  
Phones and tablets.  
Free app available.

**4:**  
**E51 and E52 Display unit\*:**  
Full graphic interface with ability to document the result

**5:**  
**XT11 Display unit\*:**  
Full graphic interface with ability to document the result

\* Display unit not included.

*Fits almost any kind of sheave!*

V-BELT

FLAT BELT

TIMING BELT

CHAIN DRIVES

# Belt Alignment

# XT190

**EASY TO USE**

Easy-Laser® BTA is attached in a few seconds magnetically, with the laser transmitter on one of the sheaves and the detector on the other. The program guides the user in mounting the units. The transmitter generates a laser plane parallel to the reference sheave. The detector reads the position in relation to the laser plane and provides a live digital display of offset and both angular values. This makes the alignment of the adjustable machine very simple. The accuracy of the digital readout lets you align within prescribed tolerances and rely on the result.

**CONNECT TO A DISPLAY UNIT**

Using a separate display unit makes it all even easier, as you can read off and follow the adjustment at the precise point on the machine where the adjustment is made. You get adjustment values for both horizontal and vertical directions (shim value), resulting in a more accurate alignment in a shorter time. You can also save the results in the display unit's internal memory and produce a PDF report.

*With the XT-series: Download the Easy-Laser XT Alignment App and use your phone or tablet as the display unit\*. Or use your XT11 display unit.*

*With the E-series: Display units E51 and E52 for the E-series shaft and geo systems have a pulley alignment program included. Add the XT190 and you can also document your belt alignments!*

\*Please see www.easylaser.com for compatible models.

*Magnetic reference surface on both transmitter and detector for easy attachment to the sheaves. On non-magnetic sheaves the units can be mounted with double-sided adhesive tape or with clamps.*

*Thanks to the clever design the units fit small as well as large sheaves.*

**TECHNICAL DATA**

Easy-Laser® XT190 BTA, Part No. 12-1053	
1	Laser transmitter
1	Detector
2	Targets
1	Charger (100–240 V AC) with cable
1	USB memory stick with documentation
1	Carrying case, W × H × D: 10.6 × 8.8 × 3.1" [270 × 225 × 80 mm]
Laser transmitter	
Sheave diameters	∅ 2.5" [60 mm] and larger
Laser class	2
Output power	<1 mW
Laser wavelength	635–670 nm
Beam angle	60°
Accuracy	Laser plane – Reference plane: Parallelity: < 0.05°, Offset < 0.008" [0.2 mm]
Battery type	1xR6 (AA) 1.5 V
Battery operation	8 hours continuously
Material	ABS plastics / Hard anodized aluminum
Dimensions	W × H × D: 5.7 × 3.4 × 1.2" [145 × 86 × 30 mm]
Weight	9.5 oz [270 g]
Detector unit	
Measurement distance	Up to 9.8' [3 m] between Transmitter and Detector
Measurement range	Axial offset: ± 0.12" [3 mm]. Angular value: ±8°
Display type	Yellow OLED 96x96 pixels
Connection	Bluetooth® wireless technology
Battery type	Li-Po
Battery operation	5 hours continuously
Material	ABS plastics / Anodized aluminum
Dimensions	W × H × D: 3.7 × 3.7 × 1.4" [95 × 95 × 36 mm]
Weight	6.7 oz [190 g]

*Download the free app!*
